- plate roll
- pipe bender
- angle roll

Call Chicago Metal Rolled Products First!

Let us curve your angle, bar, beam, channel, tube, tee, rail, pipe, sheet and plate.

1-1/2" plate 45" long rolled to a 24" inside diameter

4" pipe with two bends trimmed to length

Flanges out channel rings

12 x 4 x 5/16 tubes bent and cut

Helical strakes verified on custom rolled plate simulating the stack

5" square tube bent, miter cut, and drilled

Greatest capacity: 60 rolling and bending machines perfectly matched to curve your metal parts from 1/2 x 1/2 x 1/8 angle to W44 x 290# beams.

Most experience: 100 years of accumulated expertise (since 1908), a highly trained workforce, and expert project managers to accelerate and monitor your project from start-up to completion.

Fastest: Quickest response to changing demand with 3-day, 2-day, 1-day, and same-day turnaround times. Your inventory costs reduced.

Cost-Effective: Efficient operations, low raw-material costs, and proven value engineering to save you time and money.

Highest quality: 99% error-free quality for perfect fit up.

Best Service: Thousands of customers per year including John Deere, Caterpillar, Case, Chevron, Boeing, Lockheed, NASA, ADM, Cargill, Volvo, Trane, and GE. One part or thousands.
