

Curving the Circuit

2015 IDEAS2 Merit Award Winner: Circuit of the Americas (COTA)

Landmark 251' tall observation tower providing a 360 degree panorama view of the circuit with capacity for 10,000 spectators. CMRP provided 35 tons of curved steel that included 73 pieces of curved 8" sch 40 pipe that start out at a tight 96" centerline radius and then get a slightly larger 360" radius before opening up to a large 1,349" radius at the bottom of the tower.
