

Curve Your Enthusiasm

Chicago Metal Rolled Products cold-curved 570 tons of 12", 14", 16", 18" and 20" OD pipe to multiple radiuses, with no distortion or even scratches to snag a fingernail for the Pritzker Pavilion trellis at Chicago's Millennium Park.

Expert advice provided by Chicago Metal Rolled Products was accepted by Frank Gehry and Skidmore, Owings and Merrill for design modifications that ultimately saved time and money in the fabrication process.

To turn your vision into reality, don't curb your enthusiasm, curve it with quality rolling by Chicago Metal Rolled Products.
